Mr. Stansfield Turner  
The Director  
Central Intelligence Agency  
Washington, DC 20505

Dear Mr. Turner:

*Stan,*

As part of the application procedure for the Advanced Management Program, you assisted us by sending a letter of appraisal concerning [redacted]. We appreciate the time and thoughtfulness that goes into these letters, which play an important part in the admissions process.

The class began on February 11, 1979, and we thank you for helping us to select another outstanding group of participants. One of the major factors in the continuing success of the AMP is the class itself.

This class will be in session until May 10. I would like to invite you to visit the program while the class is in session, say hello to your nominee, and perhaps sit in on a class or two. We have guest bedrooms as a part of our executive education facilities, and we invite you to use these rooms as our guest.

I am enclosing a copy of the AMP brochure for your future use.

Sincerely,

*Bob*
